

Lesson Plan	<i>Grade 3 Yellow Submarine</i>			
Week 7-2				
	Details	Objective	Time	Materials
Vocab Review	We will play a quick quiz game reviewing some of the vocab and grammar learned in previous weeks.	This will warm up the students and help them shift their energy towards our lesson. It will also help reinforce the students' knowledge of past vocabulary, as well as to assess how well they are retaining what I am teaching them.	5 minutes	Projector, Speakers, Ppt File
Introducing Vocabulary	I will introduce key vocabulary and grammatical concepts from the song we will sing later in class, utilizing multimedia elements to help keep the students engaged.	To help the students learn new vocabulary through visual association (or, for students who already know some of the vocabulary, to help reinforce their knowledge).	10 minutes	Projector, Speakers, Ppt File
Introducing Today's Song	We will hand out copies of the lyrics to The Beatles' <i>Yellow Submarine</i> , and students will read along as we listen to the song.	Familiarize the students with the lyrics and the melody.	5 minutes	Lyrics Sheet, Video File, Projector, Speakers
Performing the Song	We will practice singing the song as I play along on guitar. We will practice the song in chunks, eventually building up to the whole song. If we have time, I will select a group of student volunteers to perform a part of the song in front of the rest of the class.	The objective is for the song to be fun for the students to sing, and for the melody to be addictive. Ideally we will strengthen their interest in music, while simultaneously helping to build their English vocabulary. As we sing the song over and over the melody and the lyrics will get stuck in the students' heads, and they will find themselves singing or humming it outside of the	20 minutes	Lyrics Sheets, Guitar, Speakers, Projector, Video File
